

WEST 8 TO PRESENT AT ARKIMEET 2014 IN ISTANBUL ON THE 20TH OF NOVEMBER

01-11-2014

ARKIMEET is the most significant meeting platform among architects in Turkey. The two day event will include national and international conferences, discussion panels and award ceremonies to honour individuals and institutions which contribute to the ongoing improvement of the urban realm. Martin Biewenga, partner at West 8, will speak at the 2014 AKRIMEET on the 20th of November.

The theme for ARKIMEET 2014 is "What's Next?". With debates of our recent past, becoming obsolete in today's context. The event questions how this uncertainty effect us as designers. How will and should architecture shape itself in this rapid and innovative process? Will designers see this process as an opportunity and a novel concept? Above all it examines what kind of future awaits us and our environments.

ARKIMEET 2014 will be held in Istanbul in Four Seasons Hotel The Bosphorus on November 19-20, 2014.
